IN MEMORIAM

Elmer Neuscheler was one of the finest gentlemen, most loyal friends, and best teachers that it has ever been my pleasure to know. He was a leader of youth whose daily associations inspired the young men with whom he came in contact to improve their own character and aspire to the better things of life.

As a teacher he was superior. Well prepared in his field, professionally trained, dedicated, hard working, and unselfish, he always gave his best. Boys loved, respected, and admired him. Courses of study that he wrote have been adopted by the State Department of Education as standard syllabi. Whenever visitors came, we made sure that they stopped at his room to observe his teaching and equipment. We were extremely proud of him, what he did, and what he stood for.

Several times he was offered opportunities for advancement elsewhere. Always he said that his interests were with us,—Edison and the Rochester school system.

He was loyal and cooperative and did everything within his power to make our school and the school system better. No task was so formidable or demanding that he considered it beneath his dignity to give it his best.

Many were the tasks he completed so well. He did much for the young men of Rochester over a long period of years. His services to youth have generated currents that will continue to grow and flourish in ways that cannot be anticipated.

Mr. Neuscheler will live in our hearts forever.

DEDICATION

The CLASS OF 1967 respecffully dedicates this EDISONIAN to Mr. Raymond C. Perry, a member of the English Department for ten years. Mr. Perry was graduated from Washington High School, which formerly occupied this building, and did his college work at Washington and Jefferson College and the University of Rochester. Known for his patience, his friendliness, and his intense loyalty to Edison, Mr. Perry's interest in school affairs is attested by his presence at nearly every athletic contest and faculty function. His popularity is further shown by correspondence and personal visits he receives from graduates long after they have left the halls of Edison. The CLASS OF 1967 deems it an honor to dedicate our yearbook to Mr. Perry.

RAYMOND C. PERRY

ADMINISTRATION AND FACULTY

PRINCIPAL

Dear Friends:

Many of you entered Edison as 8th graders. More came to us in the ninth grade and others transferred here at later times. We of the Edison Staff hope these have been fruitful years for you. A former principal once said, "Edison takes boys and makes men." Watching the development of those going through our program, I feel that this is our proudest boast.

Edison is proud of you. We hope that as the years go by, you may add to the lustre of this school making it approach our ideal, "The Best From Coast To Coast."

Cordially yours,

Ingraham Humphrey

INGRAHAM HUMPHREY

VICE-PRINCIPAL

PAUL MATHEIS

Dear Seniors,

Commencement is a happy time recognizing a job well done and dreams fulfilled. It is also a time for sober thinking and future planning.

It is my sincere hope that Edison has started you toward your chosen goals in life. I congratulate you on graduation and invite you to come back to Edison and visit as often as you can. We will be most happy to see and be of service to you.

ALWAYS REMEMBER "EVERY TECHMAN A GENTLE-MAN"

Sincerely,

Paul Matheis

COUNSELORS AND DEANS

MR. J. PERONA

GUIDANCE DEPARTMENT: The Guidance Department in the school watches over the student's intellectual growth. After a long study of the student's interest and goals, the guidance director helps him develop his potentials. He informs the student of Industrial and Technical Programs which are available at Edison.

When the student is ready for college, it is the guidance counselor who advises and aids him. For those students who do not wish to go to college, they may seek information concerning employment opportunities.

The Guidance Department welcomes the return of Mr. Nowak after his one year absence.

ENGLISH

In order to better teach the four fundamental skills of reading, writing, speaking, and listening, the English Department has inaugurated new teaching aids such as closed-circuit educational television and team teaching. These, complemented with an increased use of films, recordings, and paperbacks, give students a better understanding of their environment.

Among the courses taught at Edison are Technical Reporting and Speech.

Competent mathematics is essential in today's demand for advanced technology. With this in mind, the Mathematics Department is placing greater emphasis on its program.

Technical students are offered courses ranging from algebra to calculus. Industrial students are offered courses such as intermediate algebra and trigonometry.

One of the objectives of this department is to strengthen the Industrial Mathematics program so that it is comparable to the Technical Program.

The department was bolstered by the return of Mr. Jung.

The goals of the Science Department are ambitious but realistic. It strives to develop a better understanding of the natural and physical world. It attempts through laboratory work, to show the methods used in science. Furthermore, it strives to create interest in a career in science.

Added this year to the core of qualified instructors are Mr. R. Collins, Mr. C. Dirk, and Mr. C. Goldman.

SCIENCE

SOCIAL STUDIES

The Social Studies Department has as its constant objective, the development of student understanding of the history of man in the world.

Mr. Walter Koch, after nearly half a century at Edison, as a student and instructor, retired and was succeeded by his son, Mr. Thomas Koch, as Department Head.

Mr. Thomas Koch has attended many universities which include, the University of Rochester, Boston University, Michigan Law School, and Stanford University. He has taught both general science and social studies. He has also co-authored a book titled **Labor in American Society**. For relaxation, Mr. Koch's hobbies include boating, playing the piano, reading, and writing.

GRAPHIC ARTS

This department at Edison contains one of the most modern laboratories of its kind in the country, and is continually revising its program to meet the demands of industry.

Bestowed upon the Graphic Arts Department, this year, were local and national accolades: a national lithography award, a printing industry award, and prominent recognition of our students in the Scholastic Art Show.

Rochester is one of the largest machine tool and die manufacturing centers in the world. The students at Edison who major in and graduate from any one of the programs offered in the Metal Trades area receive a well-rounded education.

The Metal Trades area includes four machine shops, six drafting rooms, four auto mechanics shops, one pattern-making shop, and one foundry; in addition Edison offers students a welding and metal fabrication shop, one metallurgy and strength of materials laboratory and an exploratory wood and metal shop.

HEALTH AND PHYSICAL EDUCATION

The Health and Physical Education Department is concerned with the optimum physical development of all students. In order to achieve this objective, the department offers programs ranging from gymnastics to skiing.

The Department was strengthened by the arrival of Mr. Donovan and Mr. D'Ambrosia, after the departures of Mr. Costanza and Mr. Sullivan.

Mr. Donovan is a qualified instructor whose versatility has earned him an outstanding coaching record. Director of Athletics and a scout for some of this country's large universities are but some of the positions Mr. Donovan has held.

Mr. D'Ambrosia, in addition to the earning of a Master's Degree in Education, holds a Master's Degree in Guidance and Administration. He was instrumental in inaugurating the Jaycee Tennis Program in Rochester.

Edison welcomes these two outstanding coaches.

ELECTRICITY

The Electrical Department consists of two programs, a technical and an industrial. The Technical Electricity Program is college preparatory and strictly adheres to the syllabus outlined by the New York State Board of Regents.

The students in the industrial shop are provided with an opportunity in their senior year to engage in a cooperative program with Rochester's industry.

The library, the center for the distribution of books, is being continually updated to a balanced collection with an influx of publications, ranging from the science and technology field to fiction.

This program is one which requires much consideration due to the all male enrollment of Edison.

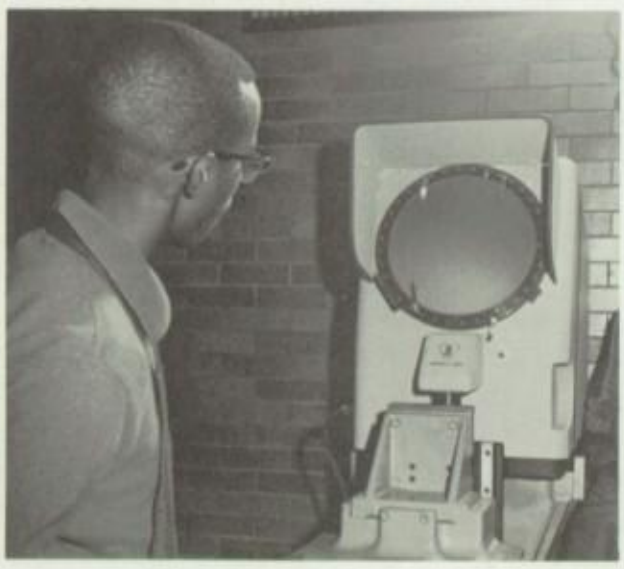
SHOPS



Mr. Barron and Mr. McIntyre instructing industrial machine students in the operation of a numerical control lathe.

INDUSTRIAL MACHINE: Numerical control is the most accomplished development in the machine tool trade today.

It is machine operations controlled by a computer, programmed with numerical coded tape.

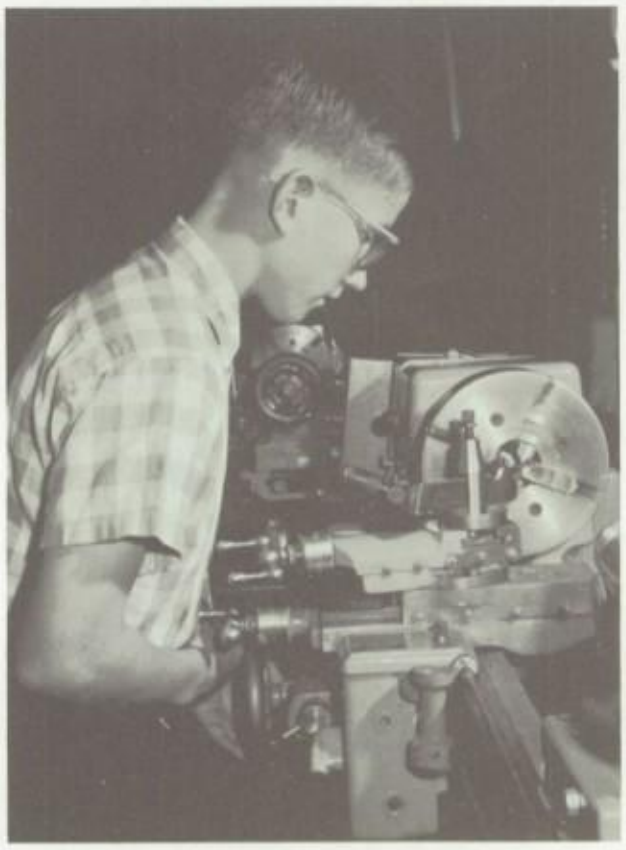
Edison is unique in that it is the only secondary school in the area to provide extensive numerical control instruction on lathe and drill presses.

Technical machine students putting machine theory into practice.

TECHNICAL MACHINE: Students enrolled in the Technical Machine program must acquire a thorough understanding of the common operations that can be performed on basic machine tools. Industrial standards and nomenclature are stressed as well as the uses of pertinent hand tools.

The course content satisfies the New York State Regents requirements for achievements at the high school level.

MACHINISTS AT WORK

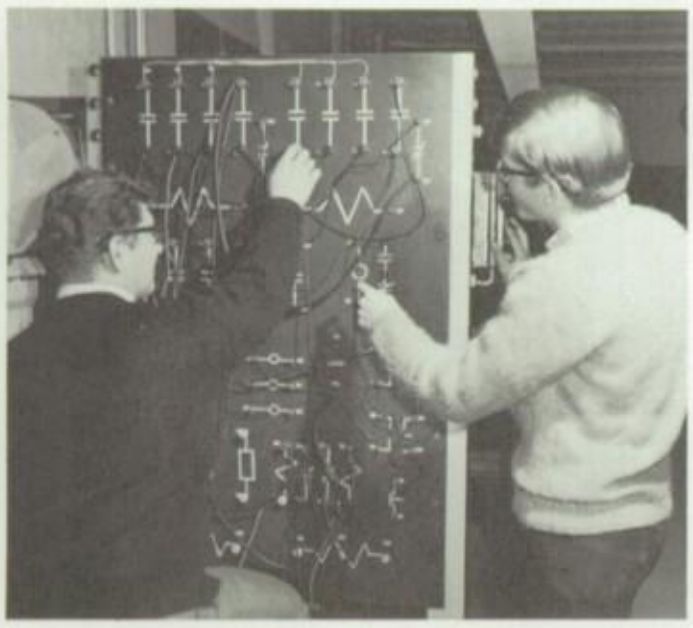


Exploratory training leads to the technical or industrial machine program.

Students involved in the testing of electrical circuits.

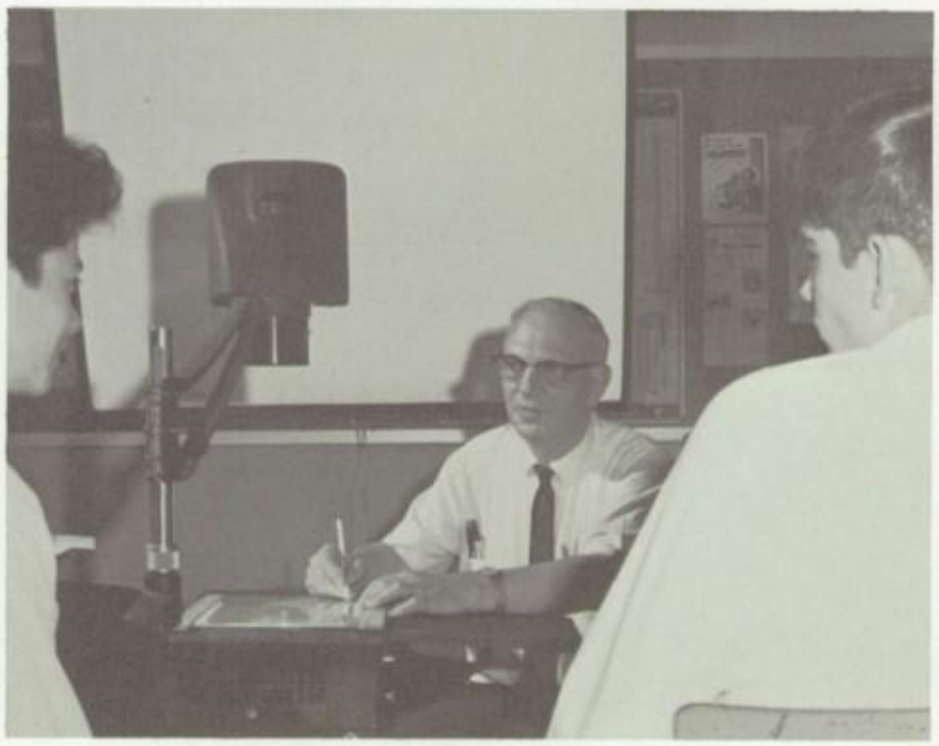
TECHNICAL ELECTRICITY: The Technical Electricity shop has acquired two new Tektronix Cathode Ray Oscilloscopes. The Type CA Plug-In Unit contains two identical calibrated pre-amplifier channels. Either channel can be used independently to produce a single display or electronically switched to produce dual-trace displays.

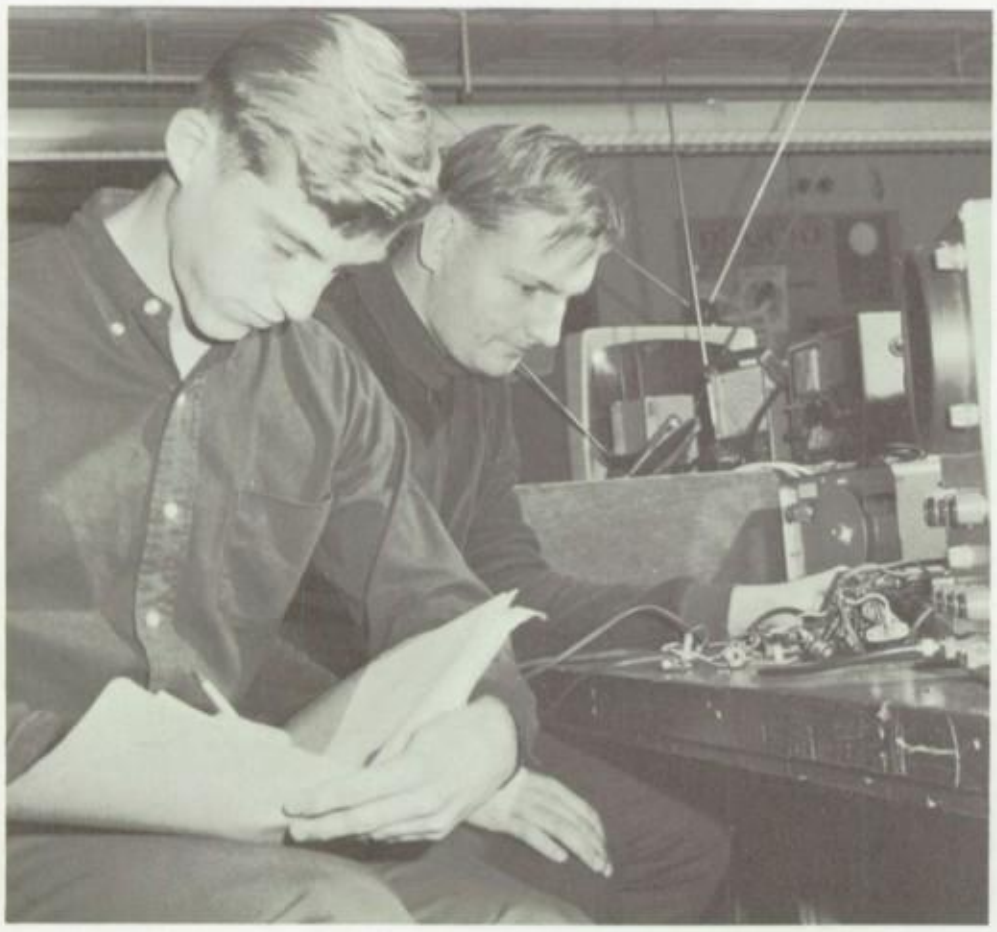
These two pieces of test equipment facilitate the student's understanding of electrical circuits.



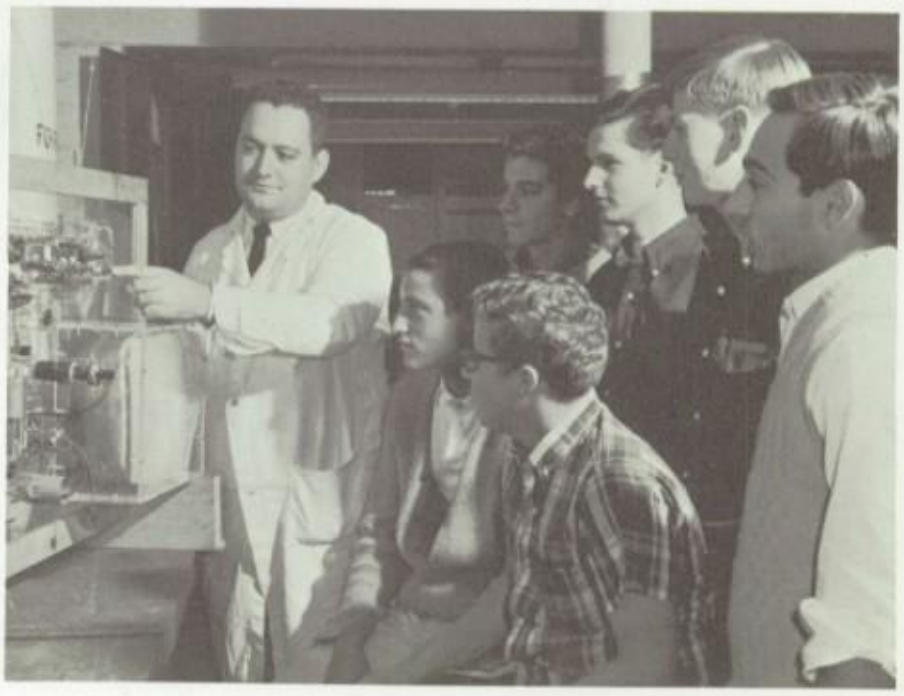
FUTURE ELECTRICIANS AND

Instruction in radio and television circuitry.

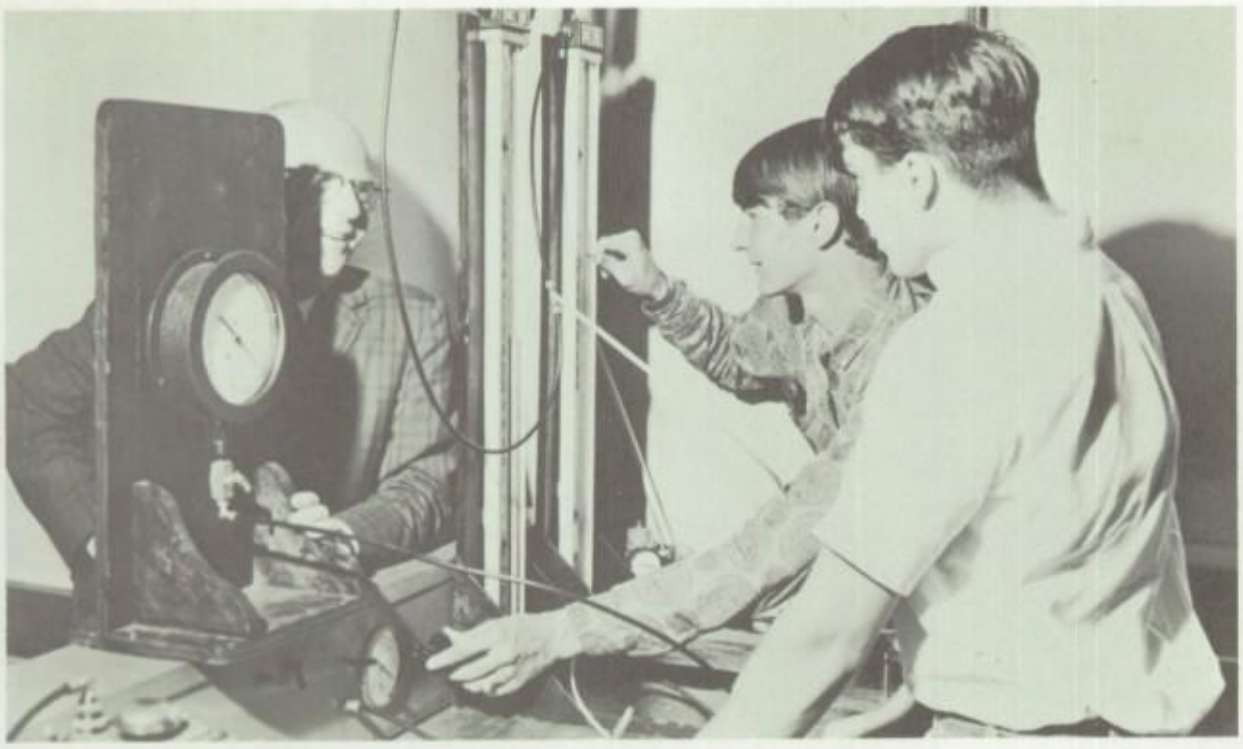




INDUSTRIAL ELECTRICITY: The objective of the Industrial Electricity program is to prepare the student for immediate employment in Rochester's electrical industry. The course of study ranges from an understanding of radio and television circuitry with Mr. Maltese to experimenting on AC and DC machinery with Mr. F. Smith.



TECHNICIANS

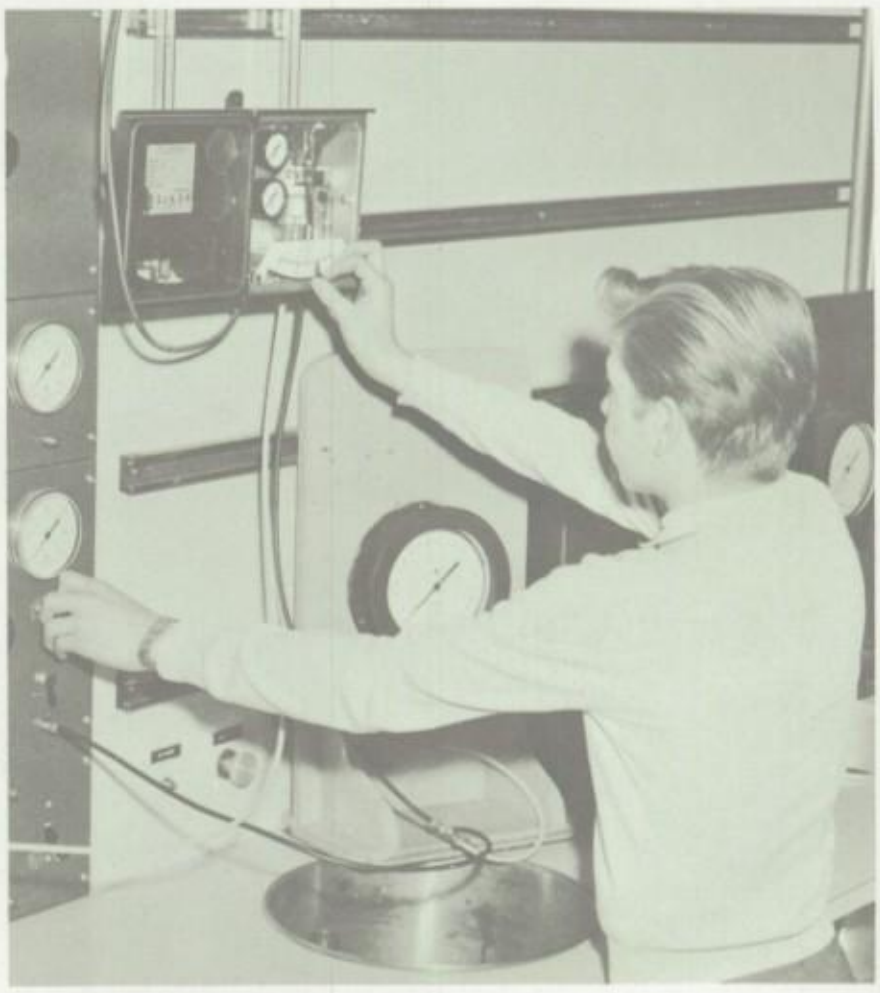


INSTRUMENTATION: Instrumentation, the heart of automation, is the measurement and control of the physical and chemical properties of matter.

Study of instrumentation at Edison prepares the student to become an instrument mechanic or technician. He may continue his education and become an instrument engineer.

THE HEART OF AUTOMATION

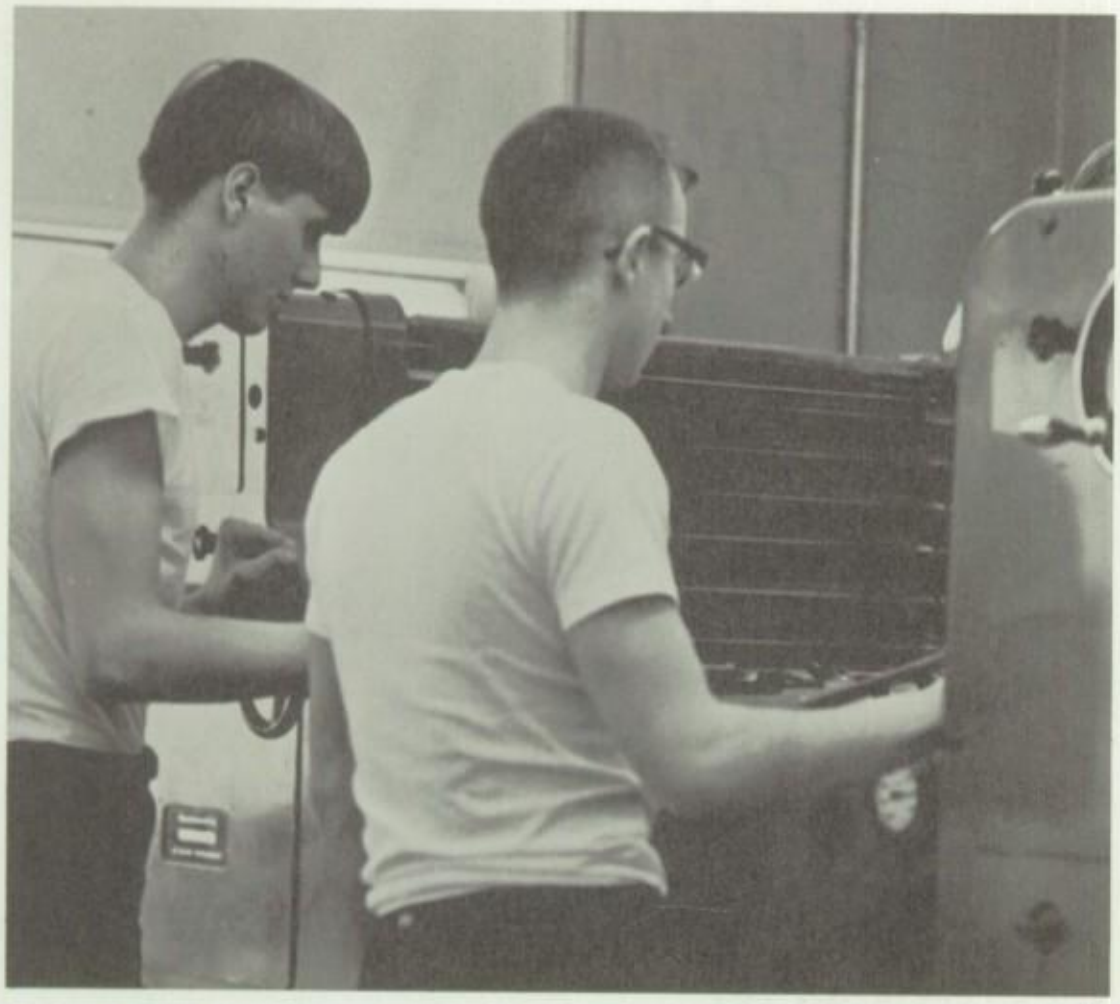
Students measuring process variables.



DRAFTING - THE UNIVERSAL LANGUAGE

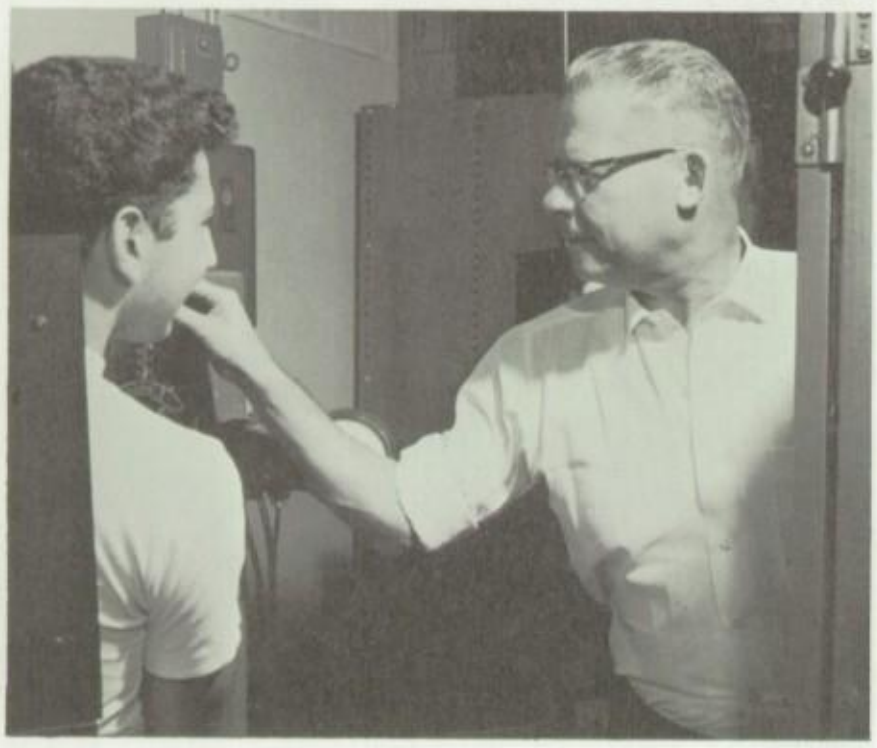
DRAFTING: A new "track-type" drafting machine has recently been installed in the Senior Drafting room. It operates on twelve precision ball-bearings, with a horizontal and vertical rail made of a special alloy hardened and ground on four V-track surfaces; this machine represents the latest in precision drafting equipment.

Students involved in mechanical design.



LITHOGRAPHY: Lithography, a planographic process, enables Edison students to become tradesmen in lithography as artists, photographers, platemakers, pressmen, or cutters. Students completing this program are readily employed in innumerable area industries.

The acquisition of an 1850 Multilith Press allows for greater versatility in the shop.



Lithography students demonstrating the lithographic process.

GRAPHIC ARTS

Mr. Morrison and students setting up a job in the shop.

PRINTING: Mr. Charles Morrison became the head of the Print Shop this year. He has been employed in the printing industry for eighteen years and is presently completing a degree in vocational education.

An addition to the Print Shop is the 30 inch Challenge Hydraulic Paper Cutter which facilitates safety and accuracy in the cutting of paper.

Mr. Morrison hopes to acquire an IBM Selectric Composer giving the Print Shop a cold-type compositor in addition to the present hot-metal composing machines.

MEDIA FOR EXPRESSION

THE ILLUSTRATIVE WORLD

Students demonstrating skills in advertising design.

ADVERTISING DESIGN: Creative inventiveness and imaginative thinking, along with a high degree of technical competence, are required of students in the Advertising Design program.

The donation of a photostat machine by Bausch and Lomb aids Mr. Feinen in relating the Advertising Design program at Edison to the art services needed by Rochester's industries.

OUR PATTERN AND FOUNDRY TRADESMEN

PATTERN AND FOUNDRY: With the recent acquisition of a "Master" spindle sander and a 20" wide jointer to replace smaller and obsolete machines, the students in the Pattern Shop have the opportunity to use equipment comparable to that used in industrial plants and cabinet shops.

Familiarity with the daily use of these machines and other modern equipment, now in the Pattern Shop, help to give students the necessary confidence for a smooth transition from the sheltered school life to the practical world of work.

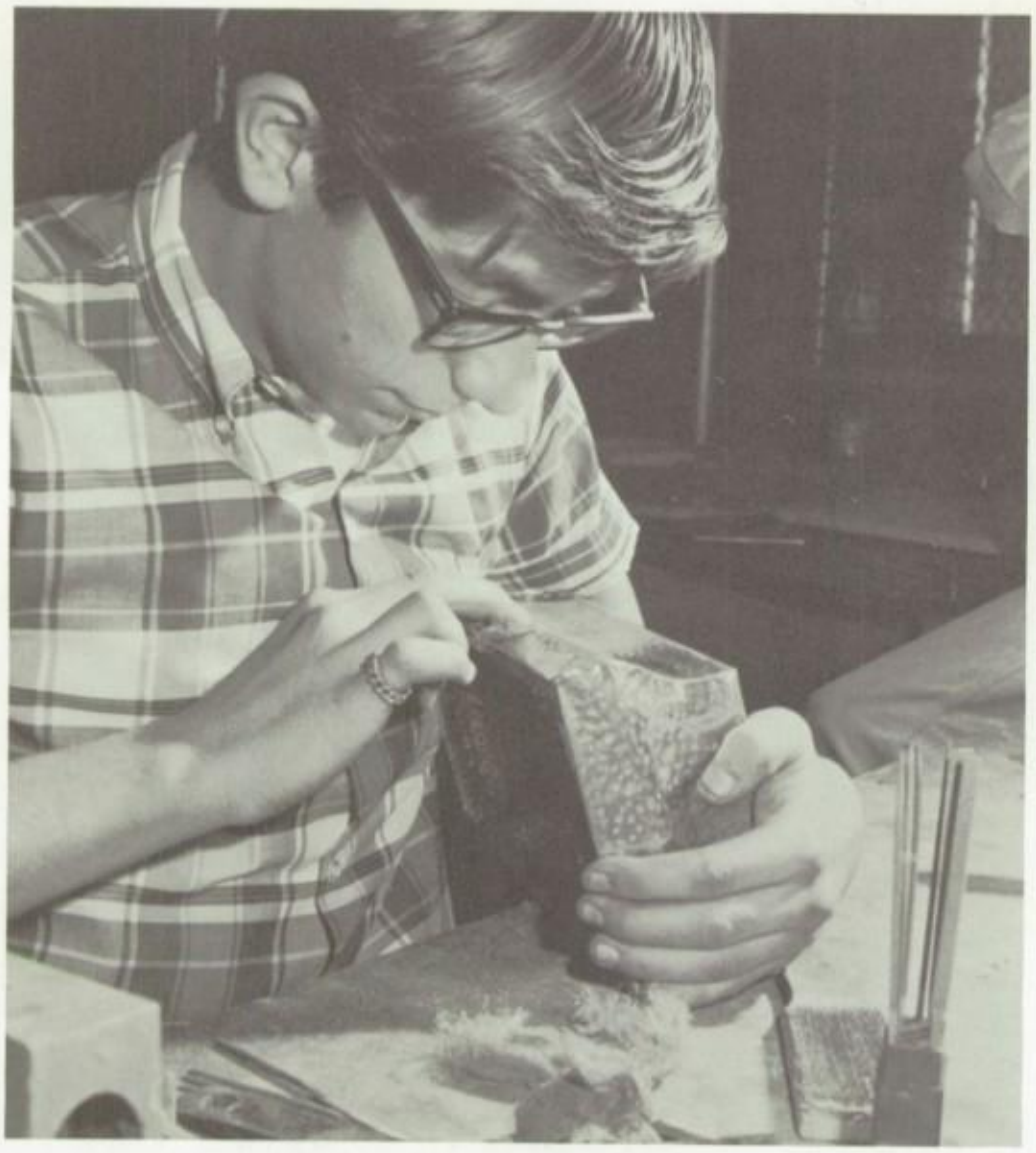
Pattern-making and sand molding.

WELDING: Mr. Clelland, who is the instructor of the Welding Shop, has one of the largest and most complete shops in Rochester.

Among the seventeen machines in the shop is a M. I. G. gun, the only piece of equipment of its kind in American school system.

THE FUSION OF METALS

Welding and industrial training.

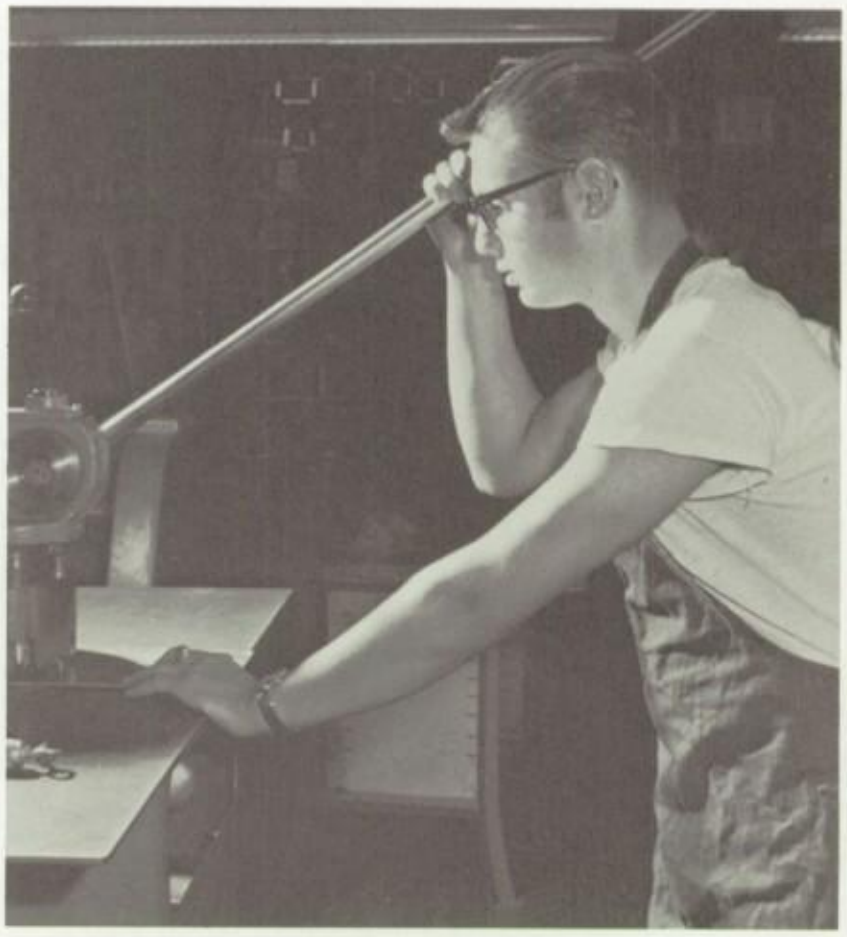


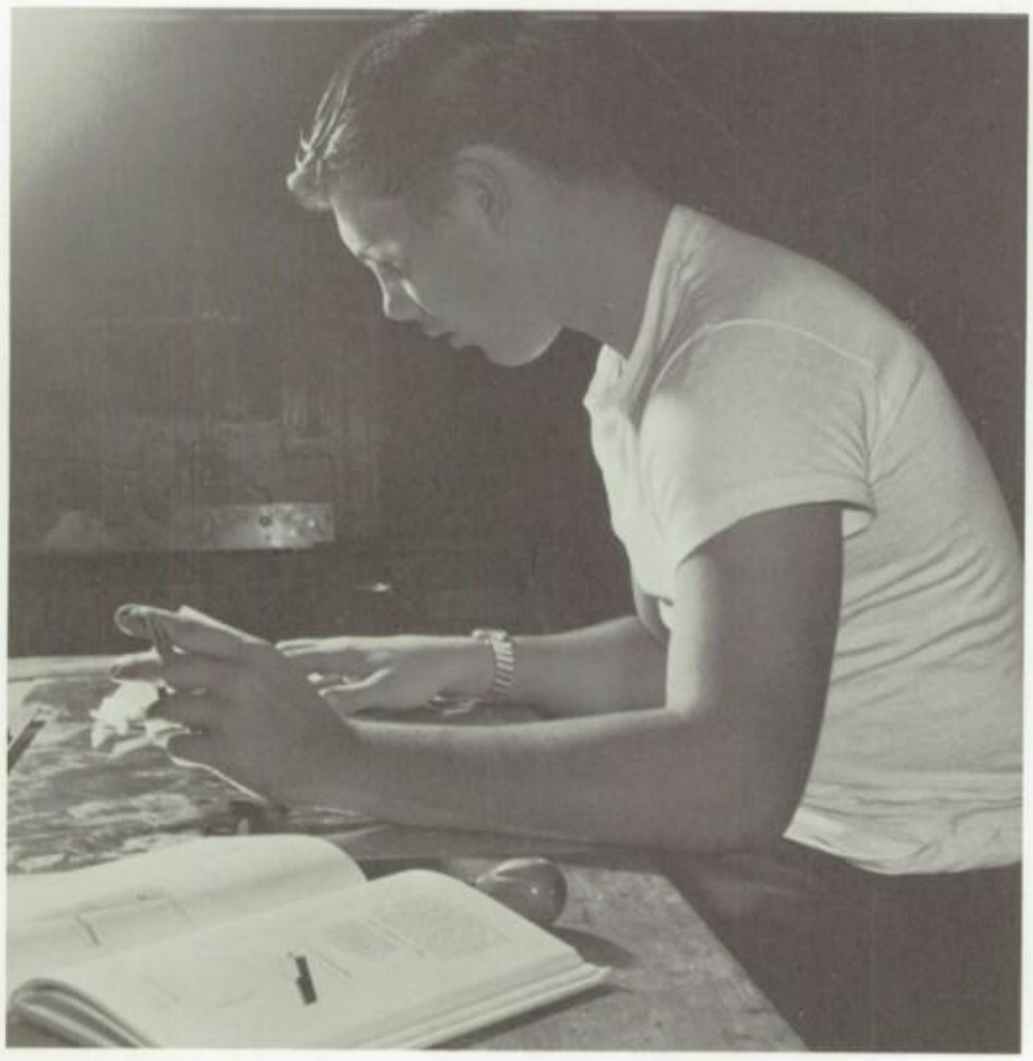
TODAY'S METAL TECHNICIANS

SHEET METAL: The Sheet Metal program at Edison has been expanded to include training in industrial application and design, as well as advanced layout and construction.

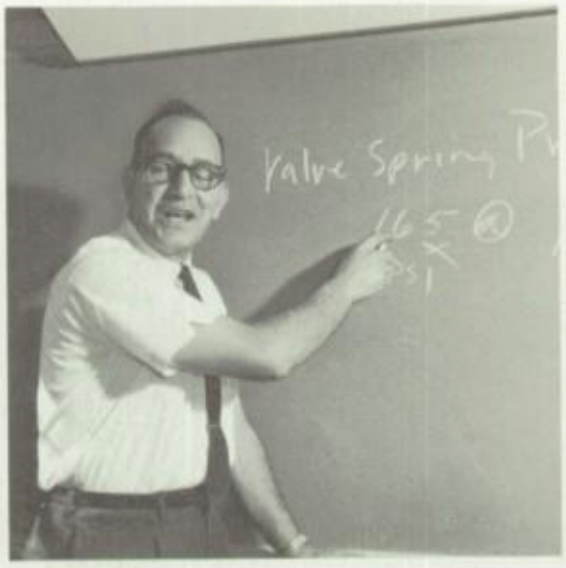
Greater emphasis is being placed on related shop theory in order to equip the student to meet the higher standards required of today's metal technicians.

New this year is an informational and planning center designed to provide up-to-date references on materials, machines, and methods concerning this area. Pamphlets and notices from the Guidance Department, concerning employment opportunities and requirements, are available in this center.





Sheet metal students learning the requirements of their trade.

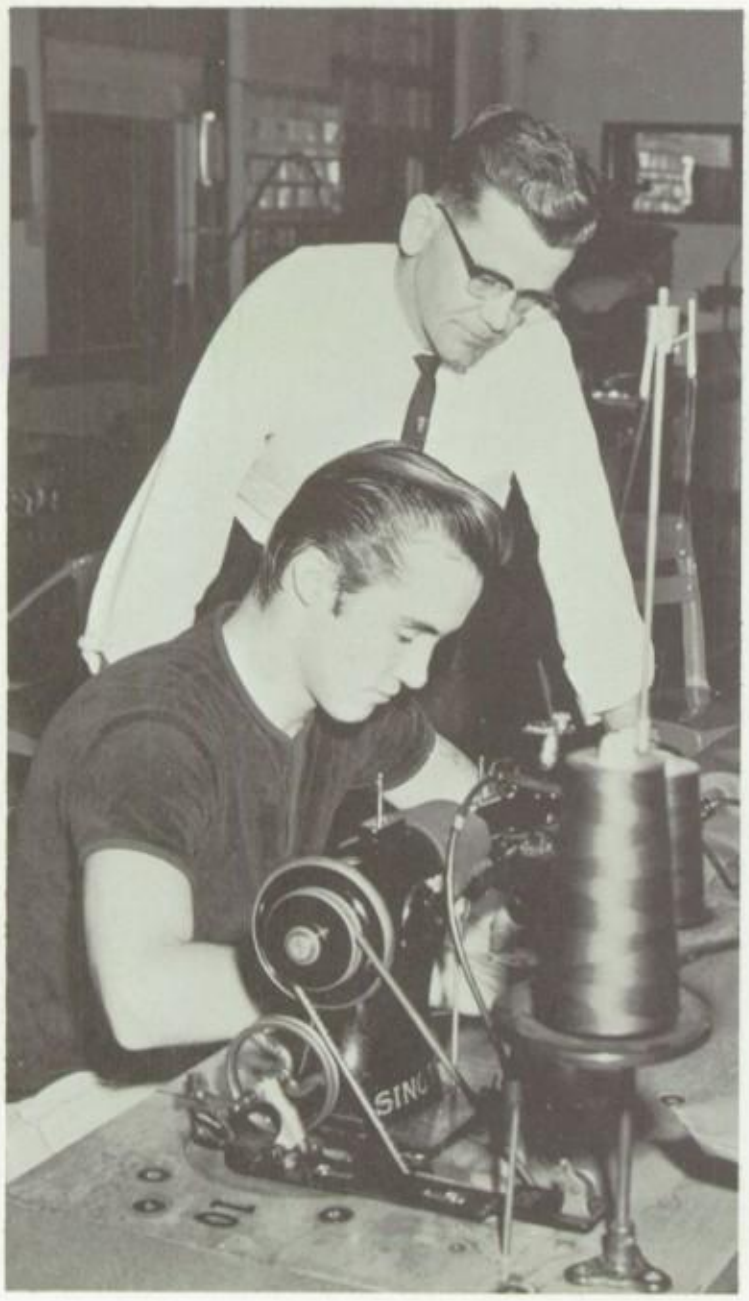


Students engaged in theory and basic fundamentals.

AUTOMOTIVE MECHANICS

AUTOMOTIVE MECHANICS: The Automotive Mechanics Shop of Edison Tech is divided into three sections which prepare the student for work in the automotive field.

Theory and basic fundamentals of the automotive engine are discussed and practiced in the 10th year shop. These theories are followed by the use of precision tools, and a study of automotive "trouble shooting" in the 11th year. The basic goal is completed in the 12th year, when the student applies his theoretical knowledge and is ready for work in industry.

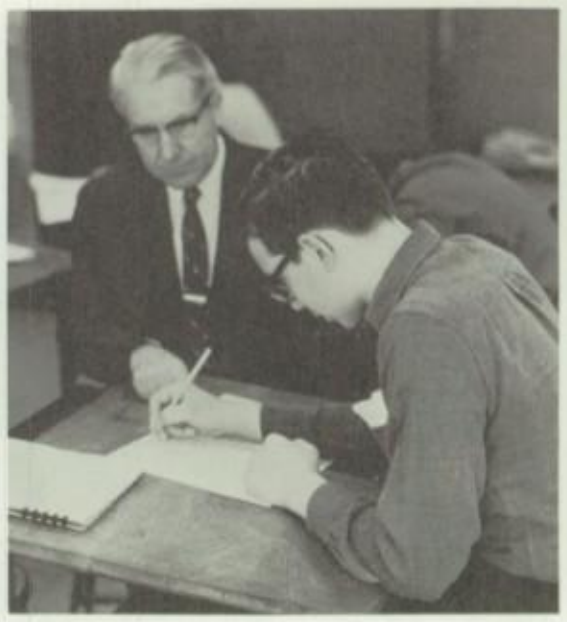


Students employing the basics of textile fabrication.

STYLISTS OF TOMORROW

TEXTILES: New to the Faculty is Rochester-born Mr. Joseph A. Collins. A graduate of Benjamin Franklin High School, Mr. Collins spent fifteen years with the Hickey-Freeman Clothing Company before achieving Teacher Training through the State University at Oswego.

Mr. Collins is engaged in presenting to exploratory students basic textile fundamentals, and to advanced students the opportunity to design and construct items of clothing.



Students exploring the world of work.

A SEARCH FOR TOMORROW

EXPLORATORY SHOPS: With the loss of our eighth grade classes our freshman class enrollment rose to 382 pupils. This large influx meant the addition of a new shop area to our exploratory program, namely **Art and Photography** under the capable guidance and teaching of Mr. Herman Gensler.

A change in teaching assignment of Mr. Frank Damick to the tenth year Automotive saw the assignment of Mr. Paul Favreau, formerly at the Manpower Center, to our Transportation Shop. This year will be the tenth year of our highly successful exploratory program which has become recognized in many states as a fine medium to help students find the right niche in the work of industry.

ACTIVITIES

First Row: Kiniorski, Case, Drew. Second Row: Miss Lanyon, Miss Balch. Third Row: Pleten, Berndt, Cudahy, Virkus, Carey, Wilson.

TECH FOLLIES: Strains of Broadway Musicals filled the Edison Auditorium as the Tech Follies presented "Broadway U.S.A." Several girls from Jefferson added charm and femininity as they danced to and sang selections from "Gypsy," "Oklahoma," "Sound of Music," and "Mame." Our own Tech Singers sang several chorus numbers, as well as solos and duets. The highlight of the evening "Nothing Like A Dame" featured our own talented Edison Faculty. Music does indeed portray the soul of man.

BROADWAY U.S.A.

TECH SINGERS

MUSIC: The Music Department is continuing its program in performing a variety of musical presentations. The entire school benefits in some way from its success. First, the music students themselves learn to appreciate music as an art form and may continue to study music as a career. The student not involved in the program derives pleasure from the concerts given by the band and glee club at assemblies or special performances. He, too, becomes a better listener of music.

GLEE CLUB

THE SOUND OF MUSIC

BAND—First Row: Pizzo, Farington, Fuller, Farrak, Spinning, Mowers. Second Row: Mr. Zajkowski, Denny, Matthews, Liposchak, Welch, Robbins, Rivevs, Copeland, Valle, Cavigliano. Third Row: Ross, Ignizio, O'Brien, Wilson, Ross, Carey, Gunita, Malerk, Hallauer, Barber, Collazo, Phillips, Hochreiter, DeRose.

First Row: Ogradowski, Lill, Second Row: Bartholomay, Knight, Panych, Mr. Stoeber, Nardone.

BEHIND THE SCENES

STAGE CREW: "Raise the curtains and set the scenery!" directs Mr. Stoeber, as the stage crew readies for another school event. Working behind the scenes at all assemblies, doing its part to help the show go on—this is our energetic Stage Crew. Especially during big events such as our annual Tech Follies and Christmas Assembly, the Stage Crew works diligently with Mr. Stoeber to make all stage productions successful.

First Row: Drew, Mr. Feinen, Carey. Second Row: Liposchak, Gommenginger, Harris, Zimmer, Liccione.

SCENERY CREW: Splash goes the paint, slush goes the brush, and the scenery for "Broadway U.S.A." is created by the ingenious Techmen known as the Scenery Crew.

Mr. Gregory, Rhinehart, Cudahy, Pulver, Virkus.

PROJECTION CREW: Working unseen in the back of the auditorium, the Projection Crew operates the spotlights for stage activities. This experience is appropriate for electrical students, for their responsibilities include operating and maintaining a special motor-generator set.

First Row: Ellsworth. Second Row: Moyers, Mr. Maltese, Lill, Ford, Allen, Gorall.

SOUND CREW: The Sound Crew, consisting of members of the senior electrical class, uses modern equipment to further the enjoyment of school activities. The crew operates from the band pit during all activities in the auditorium. Without this fine group the silence of Edison would never be broken.

Seated: Miss Lanyon, Beiswenger. Standing: Case, Kiniorski, Lavelle.

QUEST: "Our minds are our best gods." The purpose of the Quest is to show the truth of this quotation through creativity and sensitivity to that which surrounds us. This is best achieved through the student's artistic and literary efforts, which include poems, short stories, essays of opinion, and animated cartoons. "Truth is knowing thyself."

SCHOOL PUBLICATIONS

Seated: Bock, Ford. Standing: Frosino, Schaible, Pleten.

TECHNICAL REVIEW: The Technical Review Staff is comprised of students interested in science and technology. They edit scientific treatises and then publish these in the Review. This scientific newspaper is published annually. The Review hopes to broaden the students' scope of scientific advancement and knowledge, ranging from articles on vector analysis to fiber optics.

First Row: Case, Fink, Vecchio. Second Row: Mr. Gensler, Virkus, Mr. Orczyk, Kiniorski. Third Row: Liccione, Pleten, Zoske, Zimmer, Hofmann, Taylor, Durnherr, Bruns, Dahlin, Krizan.

EDISONIAN: Each year seniors and juniors of Edison publish an annual of the year's events and personalities. The Edisonian staff, composed of interested and qualified students recommended by the faculty, faces the awesome task of editing this yearbook. They are kept hard at work, writing the descriptions of the various organizations and departments, planning the layout, canvassing the student body for subscriptions, arranging for photographs, and in general, attempting to meet deadlines.

EDI-TECH: The news of and about Edison Tech is brought to the student body and to the community by the Edi-Tech, our school paper. Preparing articles for print, teaches reporters valuable journalism skills in addition to serving as an outlet for the news.

First Row: Zoske. Second Row: Cieslinski, Heltzel, Mr. Fuhrman, Macpherson, Scalzo. Third Row: Hochreiter, Heister, Taylor, Turchetti, Fuhrer, Calaci, Payton, Burke, Agostinelli, Della Gloria, McEachern, Badynskyj.

Seated: Frosino, Hajdaj, Malerk, Pleten, Badynskyj, Farrak, Fuhrer, Bock. Standing: Mr. Perry, Burke, Zoske, Kabelac, Dahlin, Macpherson, Langdon, Gaborski, Schaible, Berndt.

NATIONAL HONOR SOCIETY: The National Honor Society was created to give recognition to those high school students who have been outstanding in character, scholarship, leadership, and service. The basic requirement for membership is an 85% average for three years of high school, in addition to the four characteristics. Because of its high standards, membership in the National Honor Society is the greatest academic destination a student may attain. Members participated in the sectional and regional meetings with other National Honor Society Chapters. Our society is debating the proposition of "The Senior-of-the-Week Award" given to any student who excels in school service.

First Row: Pleten, Wania, Fink, Lubitow. Second Row: Virkus, Berndt, Coleman, Bock, Schaible. Third Row: Baran, Sovage, Wilson, Bachman, Macpherson, Pizzo.

VARSITY CLUB: The Varisty Club is composed of students who have gained the Edison Major "E" letter award which is earned with a total of 150 school credits in the areas of scholarship, athletics, and participation. The Varsity Club is the school's "special service." Its members perform such services as guiding visitors at Edison's annual Open House and assisting guests during public after-school activities, such as the Tech Follies. To be a member is one of the most exalted positions a student may hold.

Seated: Mr. Cushman, Poole, Pleten. Standing: Hajdaj, Ford, Berndt.

U. N. SOCIETY: Under the direction of Mr. Cushman the U. N. Society delves into the problems of international affairs. They attend discussion groups of the Rochester Junior Chamber of Commerce and undertake an annual excursion to New York City where they are privileged to view the U. N. in action. This club plays an important part in the further understanding of the world we live in.

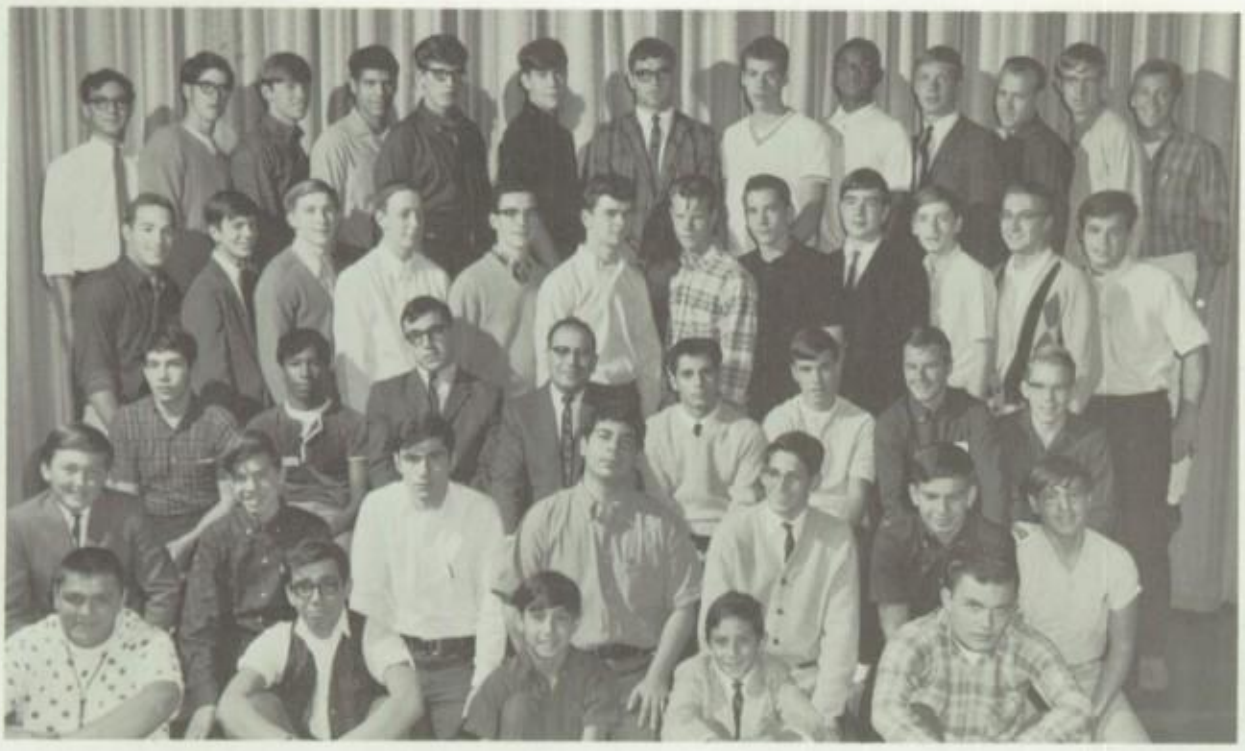
Wania, Pleten.

STANDARD BEARERS: Our flag is symbolic of the best dreams of man, dreams of individual dignity and freedom. The Standard Bearers have the greatest honor of being the guardians of our flag, to guard and handle it at assemblies and other school events. The guardians are selected in their junior year on the basis of citizenship and scholastic achievement.

QUEST FOR KNOWLEDGE

First Row: Williams, Sanzotta, Desmore, Shea, Hartman. Second Row: Miss Lanyon, Miss Balch, Thayer, Plumer, Mueller, Gallucci. Third Row: Valle, Constas, Schaubroeck, Calaci, Pleten, Virkus, Berndt, Wilson.

DEBATE SOCIETY: This year the Debate Society has participated in numerous inter-scholastic tournaments in the varsity and novice divisions and other debate activities. The twelve active members debated the proposition, Resolved: "That the foreign aid program of the United States should be limited to non-military assistance." The Rochester Area Debate League Tournament, hosted by Edison, attracted over twenty-five county schools.



Bachman-Secretary, R. Pizzo-Vice President, Vandenberg-Treasurer, C. Pizzo-President, Mr. Furnari.

STUDENT ASSOCIATION: The Student Association, an organization whose purpose is to allow the student to play a part in the administration of regular school activities, gives experience in exercising the privileges of democracy. The Student Assocation has stated in its Constitution that its aim is to promote among students scholarship, good sportsmanship, character, citizenship, and leadership.

First Row: Coleman-Secretary, Beiswenger-Business Manager. Second Row: Mr. Palermo, Ross-President. Third Row: Rotoli-Vice President, Berndt-Treasurer.

ENGINEERING CLUB: Comprised of juniors and seniors from the technical program, the Engineering Club's purpose is to familiarize its members with varied aspects of the engineering field. This objective is fulfilled with the club taking excursions to places of educational interest. This year the club will visit New York City and Alfred University.

SCIENCE CLUB: Just as weather is the governing force of life, so is modern science essential to the existence of humanity. The Science Club provides an opportunity for students to use school equipment for scientific projects and to introduce them to the science professions. This year, the club is led by Adviser Mr. Winton.

CHEERLEADERS—First Row: Ellsworth, Baran, Hopkins, Howard. Second Row: Ross, Wania, Clark. Third Row: Beiswenger, Tarantino. Fourth Row: Case.

CHESS CLUB: The skillfulness required to play a good game of chess comes only from hours of practice. Meetings of the Chess Club are held to help members improve their game.

Seated: Wania, Sanzotta, Thayer, Case, Baran. Standing: Wallace, Mueller, Walsh, Gallucci.

SCHOOL AIDES

AUDIO-VISUAL AIDES: Mrs. Huss and Mr. Crosby, Advisers.

LIBRARY AIDES: Mrs. Schifferli and Mrs. Nawrocki.

FLAG WARDENS: Mr. Gregory, Adviser.

SPORTS

Kneeling: Speranza, Cauvouto, Lukasiewicz, Dawkins, Dozier, Bleier, Harris, Miller, Smith, Key, King, Mortorana, Hoyt, Rondash. Standing: Mr. Sullivan, Kolb, Kolb, Brinkerhoff, Drew, Baran, Heidt, Button, Pizzo, Raczkowski, Behner, Darden, Kazlowski, Drew, Starling, Stechna, Mr. Hulme.

TRACK: In its 1966 season, under Coach Sullivan's direction, the varsity track team closed with a 6-3 overall record. Outstanding cindermen include Tom Cannarozzo in the quarter mile, Bill Atkins in the long jump, and Bill Darden running the two mile.

The junior varsity track team once again captured the city championship, thus forming a strong nucleus for the varsity squad.

THE CINDERMEN

Sitting: Speranza, Lubitow. Kneeling: Mr. Kapp, Yanklowski. Standing: Baziw, Wilson, Poole, Stechna, LaDuke.

GYMNASTICS: This sport of strength and agility saw fruition under the able direction of Coach Lonnie Kapp.

Gymnast Bruce Lubitow earned second place honors in the sectionals, thus becoming eligible for the intersectional tournament in Buffalo.

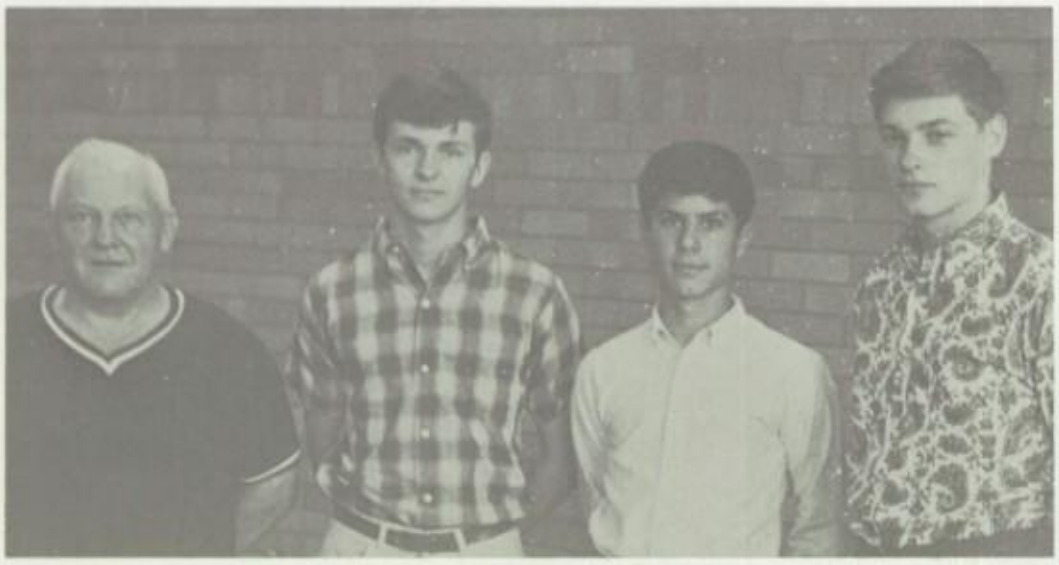
PROMISING GYMNASTS

Standing: Mr. Agnello, Soprano, Hotra, Bubel, Phillips, Sackrider, Lukasiewicz. Kneeling: Lansing, Dambrauskas, DeCoste, Freedman, Obi.

VOLLEY BALL

BOWLING: Edison's bowling team copped second place in the Inter-Scholastic League with a record of 18 wins and 6 losses. Edison's success is due to the large intramural program, which allows students to participate in this enjoyable, healthful, and highly competitive sport.

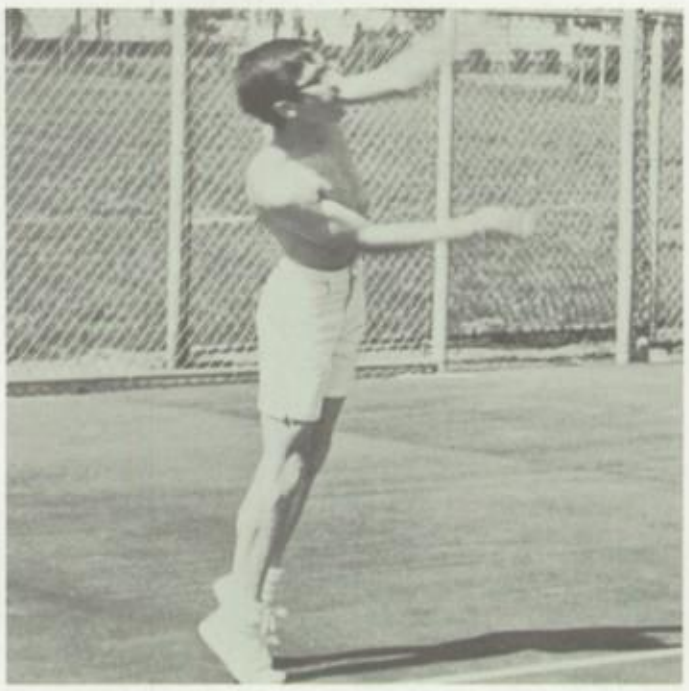
Macpherson, Alaimo, Ignizio, Jewell, Casey.



Coach Benz, Hochreiter, Alongi, Macpherson.

GOLF: The '65-'66 lineup included Dick Hochreiter, Randy Macpherson, and Joe Alongi. This young team finished with a 2-6 record.

Coach Benz's linksters, despite its losses, return next year with great promise.



Robinson, Pleten, Fink, Poole, Zoske, Coach Fuhrman.

TENNIS: The Edison Tennis team has compiled the best won-loss record of any previous team.

Netmen Bill Robinson and Anatole Pleten led the team to a 5-3 season.

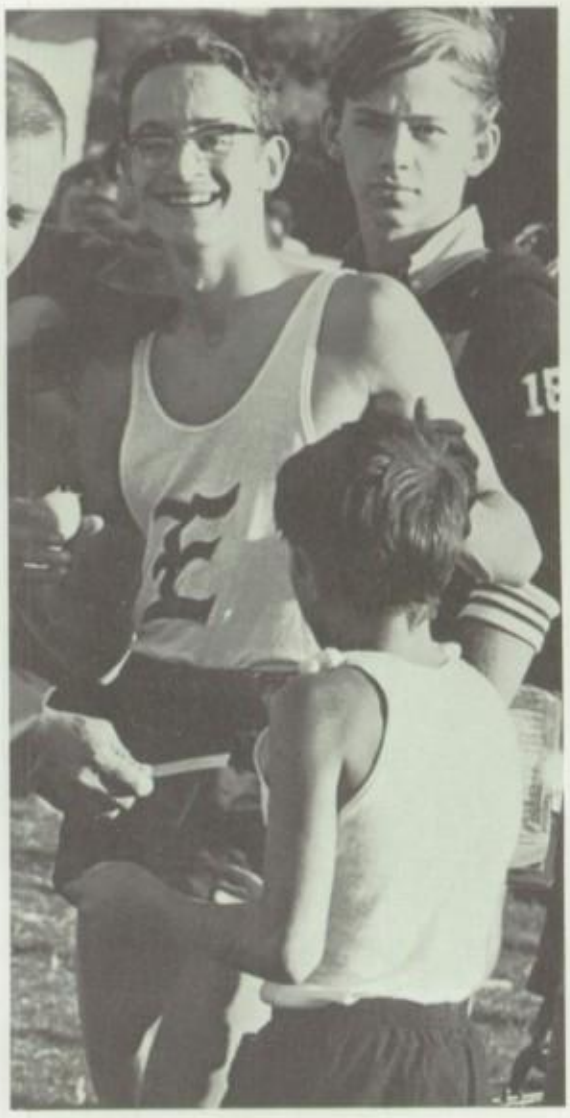
SENIORS

First Row: Lansing, Butterbaugh, Lathrop, L. Brown, Petitti, Cummings, Malara, P. Smith, J. Taylor. Second Row: M. Kolb, Womack, Amato, Dosier, R. Pizzo, K. Miller, Harris, Mr. Mielnicki. Third Row: Mr. D'Ambrosia, Macpherson, DiCataldo, C. Pizzo, Belle, Stockslader, Szabo, Kozlowski, J. Bachman, Sovage, Manfredi.

VARSITY: Under the direction of our new coach, Mr. D'Ambrosia, Edison's team earned a 4 win - 4 loss record. The team was lacking in offensive scoring punch, but had a tough defense led by the Pizzo brothers, Casper and Ralph, who were chosen for the All-Scholastic team.

Kneeling: Weller, Johnson, Rondash, Hoyt, Schaffer, Smith, Greene, Costello. Standing: Mr. Hulme, McGlynn, Harris, Darden, Calaci, Boyd, Lohr, Kolb, Granville.



CROSS-COUNTRY: Once again the fleet-footed runners represented Edison admirably in city competition. The varsity team finished a 5-3 season and placed third, while the junior varsity again ended the year as city champions.

THE HARRIERS

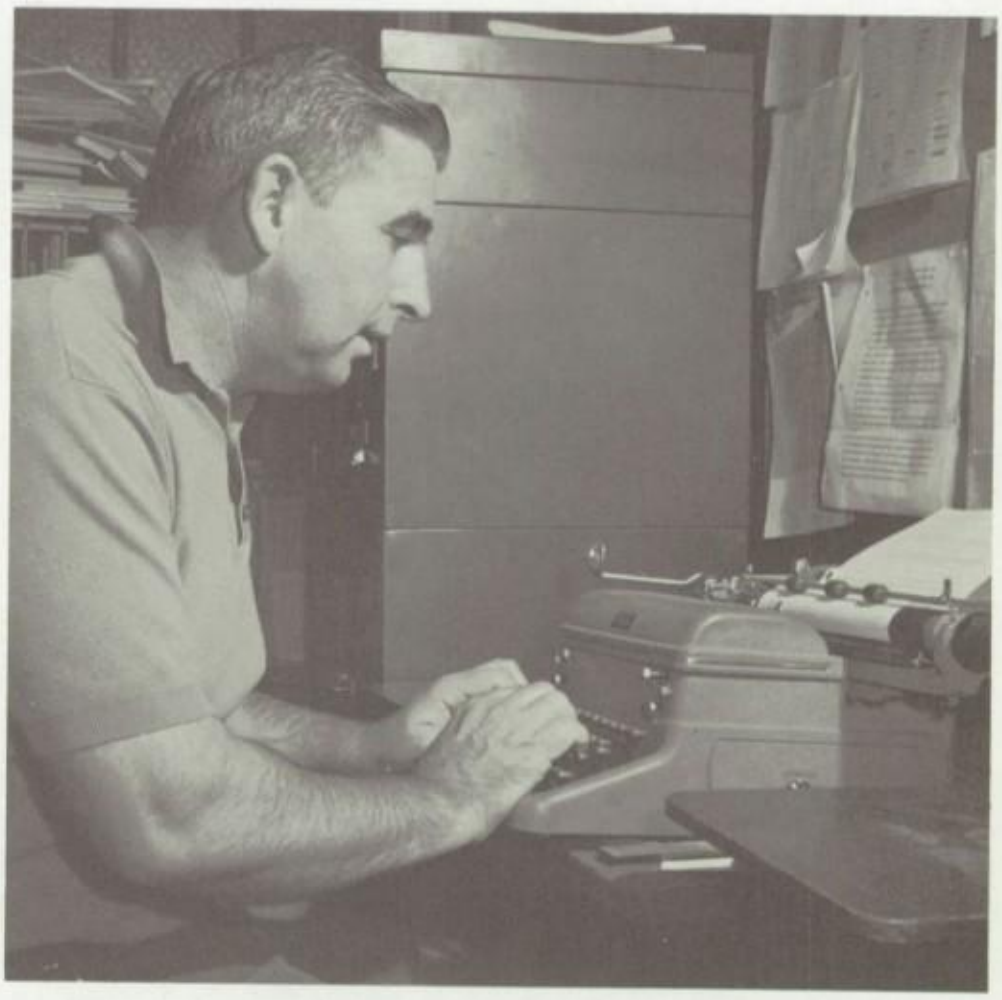
Kneeling: P. Smith, Darden, Boehler, Stockslader, Vleck, H. Wilson, G. Bachman, Dawkins. Standing: Mr. Donovan, Dozier, Gloss, Mgr., J. Bachman, Capt., Kolb, Mgr., Lathrop.

VARSITY: After pre-season tryouts and reorganization, new cagers were seen on the varsity team. These included Jerry Bachman, John Everett, and Henry Wilson. They joined the already established veterans John Bachman and Rick Boehler.

Despite its poor record of 4-12, the team showed improvement and gained valuable experience, thus forming a strong competitor for future years.



JUNIOR VARSITY: Composed primarily of freshmen, our junior varsity team showed improvement throughout the season.

Bob Ashford, Clark Gricius, and Gary Boehler demonstrated potential and will be a tremendous asset to next year's varsity team.

J.V.: Kneeling: E. Smith, Lipomi, Witkowski, Charles, Ashford, Bruce, Walker, Everett, Chateauneuf. Standing: Mr. Hulme, Macikowski, Crank, Ashford, Boehler, Gricius, Boyd, Mgr.

EDUCATION . . .
YOUR INVESTMENT
IN THE FUTURE

Getting an education is one of the most important projects you'll ever tackle. In fact, the education you obtain now will help you throughout your life, no matter what type of work you choose or wherever you go.

Today, your education doesn't need to end when you leave high school or college. There are lifelong opportunities to learn: on-the-job training, adult education classes at night school, and special training programs sponsored by industry are only a few of the many means by which you can continue to improve yourself.

So, the opportunities to learn are there. But, it's up to you to make the best of them. Your education holds the key to the years ahead, and whatever investment you make in education will probably pay off in a better job and a brighter future.

How high the goals?

We at Xerox are working in a field of almost boundless potential. We call this field "graphic communications." Yet to say we are in the communications business suggests, at least to us, an obligation to a world in which people *can* communicate.

We want to add new dimensions to the ways they communicate, to make increasing knowledge more broadly useful. For if man is to progress, knowledge must spread freely throughout the world.

Lofty targets? To set high, high goals, to have almost unattainable aspirations is as important to Xerox as the balance sheet; perhaps more so.
